

Dr McNulty is a Consultant respiratory physician at Nottingham University Hospitals. He specialises in lung cancer and interventional bronchoscopy with an additional interest in COPD and pleural procedures. He undertook clinical training in the East Midlands deanery. He was awarded a PhD from Imperial College, London where he undertook work investigating the physiological mechanisms of lung volume reduction coils. During his three year PhD he trained under Pallav Shah Royal Brompton Hospital and Chelsea and Westminster Hospital specialising in interventional bronchoscopy. He is now working as a respiratory physician performing interventional bronchoscopy, EBUS and medical thoracoscopy.
